

ALIGN™

COMPOSITE CLADDING

STRIKING AESTHETICS WITH INSTALLATION EASE FOR A SUPERIOR OVERALL VALUE

REINFORCED NAIL HEM
delivers extra-strong wall attachment and increased windload resistance.

FORGIVING HANG
helps conceal uneven surfaces and minor wall imperfections.

SELF-ALIGNING STACK LOCK
provides consistent and easy installation.

(GP)² TECHNOLOGY[®]
ensures lower expansion and greater structural integrity.

INTEGRATED ENERGY-SAVING INSULATION
helps prevent energy loss year-round.

7" FLAT FACE PROFILE WITH CEDAR MILL GRAIN TEXTURE
recreates the organic beauty of natural wood.

ON-TREND COLOR PALETTE
features 20 fade-resistant, low-gloss colors for extensive design options.

COMPATIBLE 3/4" PANEL PROJECTION
works beautifully with both standard and architectural trim accents.

DEFINED BUTT EDGE
replicates the look of wood, with added dimension and a crisp shadow line.

CREATE CUSTOM STYLE

Set the stage for creating a beautiful home exterior by exploring a variety of color combinations.

- For a subtle and timelessly sophisticated look, consider a monochromatic color scheme. The similar shades will unify architectural elements and create the appearance of a larger home.
- If you prefer a more dramatic design, choose a contrasting color to accentuate gables, dormers or other areas of interest. Contrasting hues lend depth and visual appeal to the features of the home.
- As a starting point in the design process, begin with three colors. If you opt for two cladding colors, use the darker hue on the bottom. Select a third color for trim details. Further refine your design with an accent of faux stone, brick, shakes or scallops.

ALIGN COMPOSITE CLADDING HAS ARRIVED - AND THERE'S NOTHING ELSE LIKE IT

The architectural beauty of real wood, but with easier installation and better overall value. ALIGN Composite Cladding delivers the high-end aesthetics customers want and the lower total installed cost businesses need.

- Ample 7" flat face exposure and authentic cedar mill grain texture achieve the rich look of wood
- Strong yet lightweight construction ensures a high-performing home exterior

- Self-aligning stack lock provides a quicker and easier installation than fiber cement and engineered wood
- Requires fewer laborers – a single installer can get the job done!

You'll appreciate the time and cost savings of this trade-friendly cladding. When it comes to choosing one of the best products for your next project, you can depend on ALIGN for quality and ease like no other.

ALIGN OFFERS ONE OF THE LOWEST TOTAL COST OF CLADDING WITHOUT SACRIFICING CURB APPEAL – WHICH MAY RESULT IN HIGHER PROFITABILITY FOR YOUR BUSINESS.

Contrasting Hues

CREATE CUSTOM STYLE

Set the stage for creating a beautiful home exterior by exploring a variety of color combinations.

- For a subtle and timelessly sophisticated look, consider a monochromatic color scheme. The similar shades will unify architectural elements and create the appearance of a larger home.
- If you prefer a more dramatic design, choose a contrasting color to accentuate gables, dormers or other areas of interest. Contrasting hues lend depth and visual appeal to the features of the home.
- As a starting point in the design process, begin with three colors. If you opt for two cladding colors, use the darker hue on the bottom. Select a third color for trim details. Further refine your design with an accent of faux stone, brick, shakes or scallops.

FUTURE-FORWARD HOME EXTERIORS.

There's nothing ordinary about ALIGN. As the world's first composite cladding incorporating Glass-Reinforced Polymer and Graphite-Infused Polystyrene (GP)² Technology, ALIGN meets or exceeds performance test standards* to provide every "must have" for style, strength, durability and easy upkeep.

When you compare ALIGN with other exterior cladding, you'll see why it's an excellent choice for your home.

Better overall value – the realistic look of wood, but without the costly upkeep of repainting year after year.

Installers are done and off the property quicker. Fewer call-backs and touch-ups.*

Performance-engineered to resist high winds, moisture, fire spread/smoke development and impact damage from debris or abrasions.

Fortified with weatherable pigments to ensure superb color retention, including darker hues.

SUPERIOR AESTHETICS, QUALITY AND VALUE – EVERYTHING PERFECTLY ALIGNS IN THIS INNOVATIVE COMPOSITE CLADDING FROM GENTEK.
